

THE MOSQUITO ERADICATOR

1 box contains two units, treats 1 acre for 90 days and you pay <0.45 cents a day.

PRODUCT OVERVIEW

The Spartan Mosquito Eradicator is the most effective, longest lasting, continuous mosquito control system. Spartan doesn't use sprays, fogs, coils, mosquito nets, citronella, electronic equipment, or zappers. The Spartan Mosquito Eradicator also doesn't require batteries or electricity, just water!

The Spartan Mosquito Eradicator is the easiest of mosquito control solutions.

- Easy to install - Hang along the property perimeter.
- Does not require power - Just add water and shake.
- Provides continuous, long range protection.
- No hazardous mists, airborne particulates, or spray-on chemicals.
- Extremely effective - Significant decrease in population within 15 days, 95% mosquito control for up to 90 days. Eradicates females and males before they can breed.
- Low cost maintenance - Just add water, shake, and replace at least every 90 days.

After the "first bite" of the season, deploy Spartan Mosquito Eradicators at approximately six feet off the ground, within 180 feet of each other, along your property line. Be sure to place the Spartan Mosquito Eradicators away from where people gather since mosquitoes will gather near the units. Once Spartan Mosquito Eradicators are deployed, they create a barrier giving the mosquitoes a target that has the same attraction triggers as people and animals. Once mosquitoes feed on the water solution they die before they can breed again. The mosquito population in the area will then decrease in 15 days or less and at least 95% of your mosquito population will cease to exist for up to 90 days.

Just add water to the fill line and sit by your pool, enjoy your firepit, or gaze at the stars, without the fear of mosquitos invading your privacy.
